Add to My List

Are you able to use apps on your device?

No

Yes

Go to the app store of your device and search for and download the **3M Cloud Library App**. ** For Kindle Fire users, visit ebook.3m.com/library/patrons

Log in with your location, library, and username—**your library barcode**—and password. Tap on the button with red “?” to agree to terms of use.

You can browse all of the 3M ebooks available in our catalog, and sync them to your device! You can also check in items early from the app.

Who pays for this?
3M ebooks are provided by a grant from the Samuel P. Hunt Foundation. NH Downloadable Consortium ebooks are provided through grant funding from the Institute of Museum and Library Services through the Library Services and Technology Act and administered by the New Hampshire State Librarian.

You will need to download 3M’s PC or Mac app at ebook.3m.com/library/patrons. With the app, you’ll be able to transfer titles to your device via a USB cable. Also, if you have authorized your PC with an existing Adobe ID, you’ll be prompted to use it. Otherwise, you’ll have to choose the recommended one that will be auto-generated for you.

After launching the app, log in with your location, library, and username—**your library barcode**—and password.

If you have checked out a 3M ebook through the catalog already, the ebook will sync in the PC or Mac app! Otherwise, you can browse all of the 3M ebooks available in our catalog and check one out, right from the app itself!

Now connect your device to your computer (using a USB cable). For the first time, you will have to authorize your device with an Adobe ID, as mentioned above. Transfer ebooks to you device by clicking the green download bar on the ebook cover art.

Things to know about library ebook services

For 3M Cloud Library titles...

- You can browse, check out, and return 3M titles from our online catalog at merrimacklibrary.org and then retrieve them from the 3M mobile or PC apps. Be sure to log in to your online account!
- You can only check out up to **3** eBook titles at a time and they circulate for **2** weeks. Checkout period begins from the moment the items is checked out. Borrowed titles automatically expire at the end of the 14 day loan period.
- You can return downloaded books early form the mobile app itself OR from your account in the online catalog.
- Borrowed titles will sync across multiple devices with the installed 3M mobile or PC app, if logged in with same user credentials
- Borrowed titles will be listed in the Items Out view of your account in the online catalog.
- Hold requests for titles (you can place up to 5 requests) will be listed in your account in the online catalog. When a title becomes available you will receive an email and/or text message (based on what you’ve given us for notification preferences). You will then have two days to check it out, which can be done right from within your account in the online catalog.
- Renewals are currently not available.

For Overdrive Titles

- You can only check out up to **3** books and/or audiobook titles at a time.
- Your borrowed eBook titles automatically expires in **2 weeks**. Titles can be renewed, as long as there are no holds pending for another borrower.
- You can return borrowed eBook titles early via the ADE software or the Overdrive app.
- You can place up to **5** hold requests on titles not currently available for check out.
- You will have **48 hours** to claim held titles, but you can configure auto-checkout in My Account settings.

Summer: Closed Sundays

Be sure to choose **Kindle Book** when selecting a book from the NH State Library's downloadable site to check out (nh.lib.overdrive.com). Click or tap "Confirm & Download", and this will take you to your

Amazon account.

Click or tap **Get library book**. Then click on **Deliver to my...** to select your device, such as your PC or mobile device with the Kindle app.

The next time your device is connected to a WiFi (not 3G) network, the Kindle book will sync your device or app under **Books**. For Kindle eReaders, you can force sync to speed up the delivery process from the Menu options of your Kindle device.

Go to the app store and download the **OverDrive app**. Launch the app and when prompted, create a free OverDrive account so that you can sync titles in the app across your devices.

To configure app: swipe from left of app to access menu options for **Add a library, Bookshelf, Account**, etc...Select **Add a library** first. Enter your zip code to find your library in the NH Downloadable Books Consortium. You will not be able to browse the State Library's ebook collection in the app's embedded browser. Be sure to sign in to your account first to see Merrimack only titles!

When clicking on **My Account** in the embedded browser, you will be prompted to find the Merrimack Library in the list and enter your barcode. You can select "**Remember**" so that the app remembers your barcode for next use. Once you have borrowed a title and chosen **ePub** format for the **Confirm/download** step, go to **Bookshelf** from the app's left panel menu (swipe from left) to view and open. The download step is necessary for any borrowed title to appear on your Bookshelf.

Yes

Are you using a Kindle eReader or the Kindle app?

No

Are you able to use apps on your device

Yes

No

If you are reading on your desktop you will borrow and transfer ebooks to your device/desktop using a USB cable.

Visit the NH State Library's downloadable site to borrow titles (nh.lib.overdrive.com). You will have to select the **Adobe ePub format** when downloading to your computer.

You will need to download/install Adobe Digital Editions (ADE) software to your computer (www.adobe.com/products/digital-editions/download.html) and create an Adobe ID.

Once Adobe Digital Editions (ADE) is installed, and you have authorized your PC with the Adobe ID that you created, you can download your ebook. The ebook should auto-open in ADE.

Now, plug in your device (with a USB cable). Your device should appear on the left panel of ADE. Right-click on the library ebook cover art and select the transfer option. You are now ready to read!

If you prefer to avoid apps and Adobe IDs, etc., then **OverDrive READ** might be for you! It allows you to use your computer and/or mobile browser on your device to read ebooks.

OverDrive Read is an in-browser ebook reader. It works just like any ebook reading app, except you don't need to activate or install extra software.

What do I need to begin? All you need is a computer, tablet, or mobile device with a modern web browser. For more information visit: read.overdrive.com/

For compatible browsers and more info about browser configuration requirements visit: read-info.overdrive.com/about/compatibility.

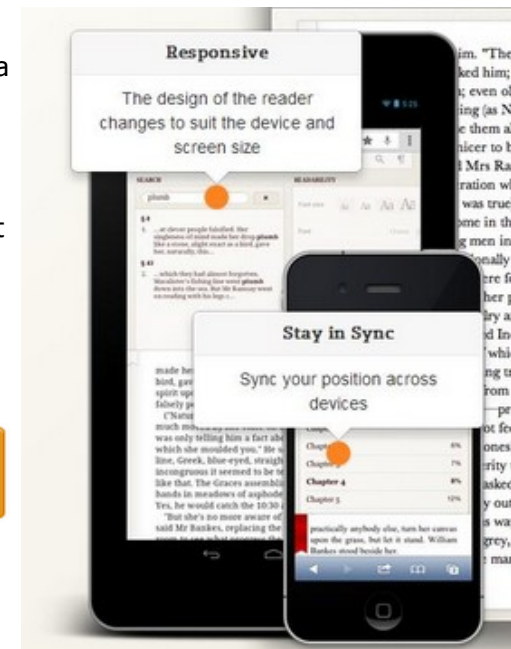

How does OverDrive Read work? Once you've borrowed a title, click the Read button next to the title to open it in a new tab or window, and bookmark it following the steps for bookmarking sites relative to your device's browser.

When you click or tap on **Read** next to a title on your bookshelf or open an ebook sample, a new tab in your browser opens to something like this:

Click or tap the right or left edges of the ebook to turn pages. Click or tap the **bookmark** icon in the upper-left to save your position.

On larger screens, the menus will display at the right. One smaller screens, the menu will be hidden. If this is the case, swipe (or click on) the top of the page to show the menu.
